YOU CAN SEE EVERYTHING

D5 - a score made entirely from ukulele recordings

180 seconds | quarter = 60 | sounding studio pitches

Original trailer arrangement

A-E-C-E passes from Roy to displaced plucks, stretched resonance and low pulses. Each 4/4 bar lasts four seconds.
Low pitches, sustains, reversal and distortion are sample processing; these are not solo-instrument fingerings.
Body staff: round note = body tap; cross note = muted strum. MIDI is timing interchange, not the finished timbre.
Roy retains D4 microtiming; all other onsets follow this grid. Silence at 2:44; one attack at 2:46; no music after 2:50.
